

## K6VVA/KL7 IOTA NA-050 Barter Island

### WHAT AN EXPERIENCE !!!

I was very fortunate to observe this mama polar bear and her two cubs at the Village “Whale Bone Pile” outside of Kaktovik, Barter Island (Alaska). The maintenance man for where I was staying drove me out to the gravel sandbar location where we parked only about 80 feet away. The two cubs periodically looked at us with curiosity :^)
